

IV. AYOP LAND MANAGEMENT WORKSHOP, 12-13 May, 2014
THEME: THE NEW GREATER-MUNICIPALTY LAW (Art.No.6360) AND
LAND MANAGEMENT RELATION IN TURKEY

The main objective of the Land Management Workshop is to manage the existing and planned lands in accordance with the new needs in the Metropolitan Municipality areas formed by the law no. 6360 in Turkey; its legal, technical and economic aspects will be examined in detail and a planned and sustainable development process will be initiated. For this purpose; our country's transformation and rural countryside to the city in the metropolitan municipality area to experience the city's participation in the process of planning and scientists on land arrangement, politicians, public and private sector representatives of the self-employed are fully addressing the issue by bringing together, Turkey's metropolitan municipalities with advice and discourse formation and contribute to the development of more rational land management decisions in the development process.
